Comment Suggestion

This TA was excellent!

Rodrigo was a great TA. He explained concepts well and was very patient. At times, he could have gone faster through the material because he would often explain things quite slowly.

Rodrigo was a great TA. He was very understanding of conflicts and made himself available to students at their convenience. He was also very good at explaining difficult material which was crucial for this course.

He was smart, resourceful, knowledgeable and accessible. He was also a very nice guy.

Rodrigo was able to answer our questions during recitations and effectively teach new methods or approaches to solving problems, which I really appreciated. My main complaint about the course is that we spent perhaps a little too much time going over the quizzes, in my opinion, and I would have valued spending more time going through new questions together. Otherwise, Rodrigo was a great TA and I enjoyed learning from him.

I only attended recitation in this class because there is a quiz every week. Otherwise, Rodrigo spends too long going over every little detail of one or two questions. While this is good for the students who need this kind of in-depth step by step instruction, I was bored and often skipped when I could.
